

A

DTP-module scores vs 3-year outcome across cohorts

Colour = effect size (red: higher in poor-outcome group). Cells: rank-biserial r, raw p, FDR q (BH); * FDR<0.05.

B

Signature-score distributions by 3-year outcome

Full cohort, true n shown; y-axis free within each dataset. Panels: rank-biserial r, raw p, FDR q (BH); * FDR<0.05, ns = not.
