

Pooled pan-cancer DTP score by 3-year outcome

Batch-corrected score (cancer type as batch), all 25 cohorts pooled. Wilcoxon rank-biserial r, raw p and BH-FDR q (Pan-Cancer). Negative r = higher score in the event group. * FDR<0.05, ** <0.01, *** <0.001.

Negative rank-biserial r = higher batch-corrected score in the event (died / recurred) group.
